

Introduction

The Atlona **AT-OME-SW32** is a 3x2 matrix switcher with HDMI and USB-C inputs, and HDMI outputs. Part of the Omega™ Series of integration products for modern AV communications and collaboration, the OME-SW32 is HDCP 2.2 compliant and supports 4K HDR and 4K/60 4:4:4 at HDMI data rates up to 18 Gbps. The USB-C input is ideal for AV interfacing with newer Mac®, Chromebook™, and Windows® PCs, as well as smartphones and tablets. Additionally, 4K downscaling to 1080p @ 60, 30, and 24 Hz is available for one of the HDMI outputs when connected to an HD sink. Depending on the intended application, the OME-SW32 can be set to specific switching modes that include mirrored outputs (default), one of the outputs fixed to an input, or unrestricted matrix switching.

Applications

- Meeting rooms with dual displays**
 The OME-SW32 is compact and easily installs under a conference table. The matrixed, dual HDMI outputs can directly feed into two flat-panel displays side-by-side.
- Conference rooms and classrooms**
 One or more OME-SW32 units can be integrated with a larger AV switcher or matrix switcher.
- Multi-room AV distribution systems**
 This compact matrix switcher is also ideal for localized switching into or out of a centralized AV distribution system such as OmniStream™.
- Video conferencing system upgrade**
 The OME-SW32 can provide a cost-effective update to an existing system, adding 4K/60 capability with down-conversion to 1080p for the codec.

Key Features

3x2 matrix switcher

- USB-C and two HDMI inputs, plus two HDMI outputs. Immediate compatibility with laptops and tablets with USB-C ports supporting A/V.
- No need to provide USB-C to HDMI adapters for USB-C* AV sources.

Selectable AV switching modes

- Three selectable switching modes, including mirrored HDMI outputs, matrixed outputs, and a special mode with one input fixed to one of the outputs.
- Enables simple configuration and effortless user operation, tailored to the specific AV application.

4K/UHD capability @ 60 Hz with 4:4:4 chroma sampling, plus support for HDR formats

- Ideal for new and emerging 4K/UHD and HDR-capable sources and displays. Supports HDR10 @ 60 Hz and Dolby Vision @ 60 Hz, as well as HLG.
- Fully supports video resolutions, audio formats, and color space formats in the HDMI 2.0b specification.

Selectable 4K to 1080p downscaling

- Integrated video processing available on output 1 for down-converting 4K/UHD @ 60 Hz to 1080p
- Ideal for applications with 1080p displays, video conferencing codecs, and other HD sink devices .

Automatic input selection and automatic display control

- Automatically changes display power state, and switches between inputs based on device connection or disconnection from the switcher. Also can be configured to power off display after a period of inactivity.
- Enables effortless, automated system operation without the need for an external control system.

Audio de-embedding

- De-embeds two channel PCM audio from the selected video source on HDMI output 1 to a balanced, analog audio output.
- Independent mute control available for embedded two-channel PCM audio with both HDMI outputs.

*USB-C port does not support USB data or device powering.

Specifications

Connectors, Controls, and Indicators	
HDMI IN	2 - Type A, 19-pin female
HDMI OUT	2 - Type A, 19-pin female
USB-C IN	1 - USB Type-C v3.1, 24-pin female, AV input (Alternate Mode)
FW	1 - Mini-USB, 5-pin female
AUDIO OUT	1 - 5-pin captive screw, balanced / unbalanced 2-channel
RS-232	1 - 3-pin captive screw (bidirectional)
LAN	1 - RJ45, 100Base-T
DC 24V	1 - 4-pin, mini-DIN locking connector
PWR indicator	1 - LED, green
LINK indicator	1 - LED, amber
Control Buttons: INPUT, DISPLAY, IP MODE, RESET	4 - momentary, tact-type
Input Indicators: USB-C, HDMI IN 1, HDMI IN 2	3 - LED, green
